Universal Car Holder to use in air vent of vehicle

Peter approved and I replaced the damaged mobile phone holder in car CO36MF with a new one. This one is easy to use. I have put it on the air vent slips, but if you need to move it there is a little button in the back, push it down and remove or insert. It is stretchable to for different mobile phones. With wear and tear this lasts about 3-4 years if used correctly. See image for help.
