Travel Times - Displays travel times from major routes to and from the situation (in real time).

Questions Asked and Answered:

1. David Phillip | 19-Jun-2020 02:12 |
   Can this App be used as route map?
   a. answered by @steve.baltzois 20-Jun-2020 15:13
      a. No it cannot. It does not have the right settings and algorithm used in Google Maps or the Job App to provide the best route. It is only used for informative purposes when you are planning your route or need to check possible routes. All approved route taking is only to be done using Google Maps or at times the Job App.
