I cannot call the number +61 61000000 or +61000000

If you see a phone number that is **+61 61000000** or **+61000000** it is likely that number has been entered as the generic number because the customer has not provided the staff member with the correct number.

The **mobile** field number is a required field.Â If you do not have or are not given the mobile number you need to write 000000 in the mobile field to save the changes or information added.Â If this is the case you will see **+61 61000000** or **+61000000** in the field.

The **+61 61000000** or **+61000000** means that it is not available or has not been provided.
