

ERM User Manual

Who do I know who to speak to or with on Slack?

There are many different people you can communicate with in the Company. Working out who to speak with can be difficult, however here are a few tips that would assist you.

You can access the Company Workspace Directory in Slack by clicking on the 3 vertical dots

button, click on

After pressing the

This will provide you with a list of Staff and contractors within the company.

You can search or scroll through the list to determine who can assist you.

You can also speak with your Team Supervisors. Remember however that each supervisor may work in a different office in a different country in a different time zone. You can see the office the Team Supervisor is working in through the Workspace Directory and click on their name.

Page 1 / 10

ERM User Manual

If you need help with how to do a task for your Sales or Events work ...

- It is best to speak with your Team Supervisor on the correct Slack Channel or use the Group Member of

The

is a group member account that notifies all Event Staff Globally within the company and your Team Supervisors in that specific channel.

Â

If you need help with a customer ...

- It is often best to use the
on the correct channel.
- Unless it is urgent or the customer is upset, there is no need to contact your Team Supervisor for assistance that can be managed by a fellow staff member assigned to that channel.

Â

An upset or angry customer ...

- Refer to your Team Supervisor on the Correct Channel.

Â

Computer related problem or technical issue ...

- channel use the
Group Member account.
- Computer-related or technical problems should always be spoken with on the
- Not all staff are trained in technical support and therefore support should be related to the company support staff at all times.

Â

Here is a list of possible scenarios and who as a suggestion you should speak with and on what suggested channel.

Please note:

1. All slack channels have a discription of what the channel should be use for. To learn more about a specific channel and what it is for, follow the SLACK FAQ <https://slack.com/intl/en-au/help/articles/201654083-Set-a-channel-topic-or-description#set-or-edit-a-channel-description> or <https://slack.com/intl/en-au/help/articles/360017938993-What-is-a-channel#use-channels>.
2. The use of Slack's Direct or Group Direct Messaging for this (private/confidential conversations/messaging) with another Iconic Worker or Supervisor is at times a required thing to use, however you must remember that Direct or Group Direct Messaging make time a longer time for a reply to be made especially if the worker is not rostered on that day, different timezone, is in a meeting or you have forgotten to use the nametag. Transparency always matters, so most conversations should happen in public channels so that theyâ€™re searchable by all worker. The use of Slack's Direct or Group Direct Messaging for this (private/confidential conversations/messaging) with another Iconic Worker or Supervisor should be used for private and confidential conversations and not for private personal matter between workers.
3. If you have a scenario or are unsure of who to contact during a scenario and it is not listed below, make a comment of your specific scenario, using the Comment button/function and it will be answered and added to the list below.

Questions Asked and Answered:

1. David Phillip | 07-Jun-2020 07:46 |

**Question: Are there supposed to be any details when it says:
"Possible Scenario Suggested person Who you should speak with Suggested
channel to us"**

a. answered by @steve.baltzois 8-Jun-2020 13:49

a. I am not sure it was not displaying, however I saved the FAQ again and it seems to have fixed the problem and the scenarios are displaying.
