Questions and Answers:

1. **David Phillip | 18-Nov-2019 09:10 |**
Question: On arriving at an Iconic Rented venue, a female employee requests her supervisor/Senior person on tour to please check her room first to ensure it is safe to enter. Aware of Iconic Policy that at no time may a male and female colleague be together in any

Iconic leased room does Supervisor request female colleague to wait outside while he inspects the room for safety and if answer to this is "Yes" what does Supervisor do if female colleague states she does not want to be left alone until secure and inside the room. Note: This query is more specific to where the rental property is either Motel or Hotel.

1. **Answered by Ian Roberts 30-Nov-2019 02:43**

Answer to part 1 of 2 here is yes you would ask the female to remain outside the room or at the doorway (not blocking the entrance/exit) of the room while the supervisor checks.

Answer to part 2 of 2. You can always wait outside the door of the room of the hotel/motel until the female worker is comfortable. This has never happened, but if it does waiting outside is sufficient.

Fully read and understood. Comment: at several points in this faq the term "cigarette Ash" is used. There are many different forms of tobacco e.g. (cigarettes, cigars, pipes etc) may I suggest that the term "Tobacco Ash" be used for the purposes of 100% clarity? Question: What is Iconic Policy in regard to inviting guests (family, friends) into Accommodation leased premises as covered in this faq?

1. **answered by John Khoury 28-Oct-2019 16:29**

The term cigarette ash is the legal term for all forms of smoking that produces a residue, including that of tobacco. **Cigarette ash** is the residue remaining after the burning of all elements that are or can be smoked, including drug paraphernalia.

Cigarette ash contains many more inorganic additives than other **tobacco** products in order to promote even and continuous burning. Tobacco is the common name of several plants in the Nicotiana genus and the Solanaceae (nightshade) family with 70 types of different Tobacco and does not cover all residue left over by smoking.

2. The answer to inviting guests into Accommodation leased premises is already covered in clause 5.4. and 7.5 of the [Policy on Travelling, Transportation, Accommodation and Flights.](#)
