Punchclock and Production Event Job Time Sheet

What is the difference between the Roster Server and the Punch clock?

It is important to understand that the two systems the **Roster Server** and the **Punch Clock** work together to ensure the most proficient way of handling the vast number of events, productions, and staff rosters.

Â

The **Roster Server** is your Calendar notifications of all your of Scheduled

1. Work Job Rosters,
2. Event Rosters
3. Call Sheets (Call times)
4. Shift Changes and
5. Where you add your unavailability.

Â

The **Punch Clock** proprietory program is a

1. very advanced digital Production and Event Job Sheet.Â
2. The **Punch Clock** actually replaces the paper sheet of the old Event Management Job Sheet.

You must first activate and setup your staff profile on the Roster System before you can use the **Punch Clock.Â** Ciick here to learn **how to login and setup your Roster Staff Profile**.
