Lync Server Phone System

Download VOIP Lync Phone System Software

To download the phone system software here are your details.

1. Click on this secured link to download the correct version of the software https://www.dropbox.com/sh/448kujxpoacu0c9/AAAqq3L-rtpE79-iJ4LOJfXqa?dl=0

2. The password to enter is **$IP2010-2017.!$WW**

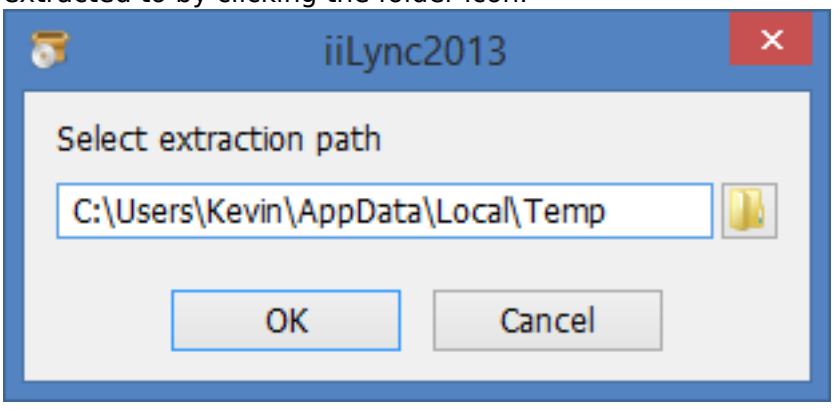

3. Select the correct installer package.Â **Important do not install 32 bit on a 64-Bit Computer or a the 64 Bit on a 32 bit computer.Â This will be difficult to remove if you install the wrong file.Â** If you do not know what bit system you are running go to Control Panel > All Control Panel Items > System â€¦ and under System Type it will say what you are running.
    1. To install the 32-bit software for Windows select the file **iiLync2013-x86-32bit.exe**
    2. To install the 64-bit software for Windows select the file **iiLync2013-x64bit.exe**
    3. To install the software for MAC computer select the file that says for mac.Â It is a **zip** file.

Â

After you download do this.

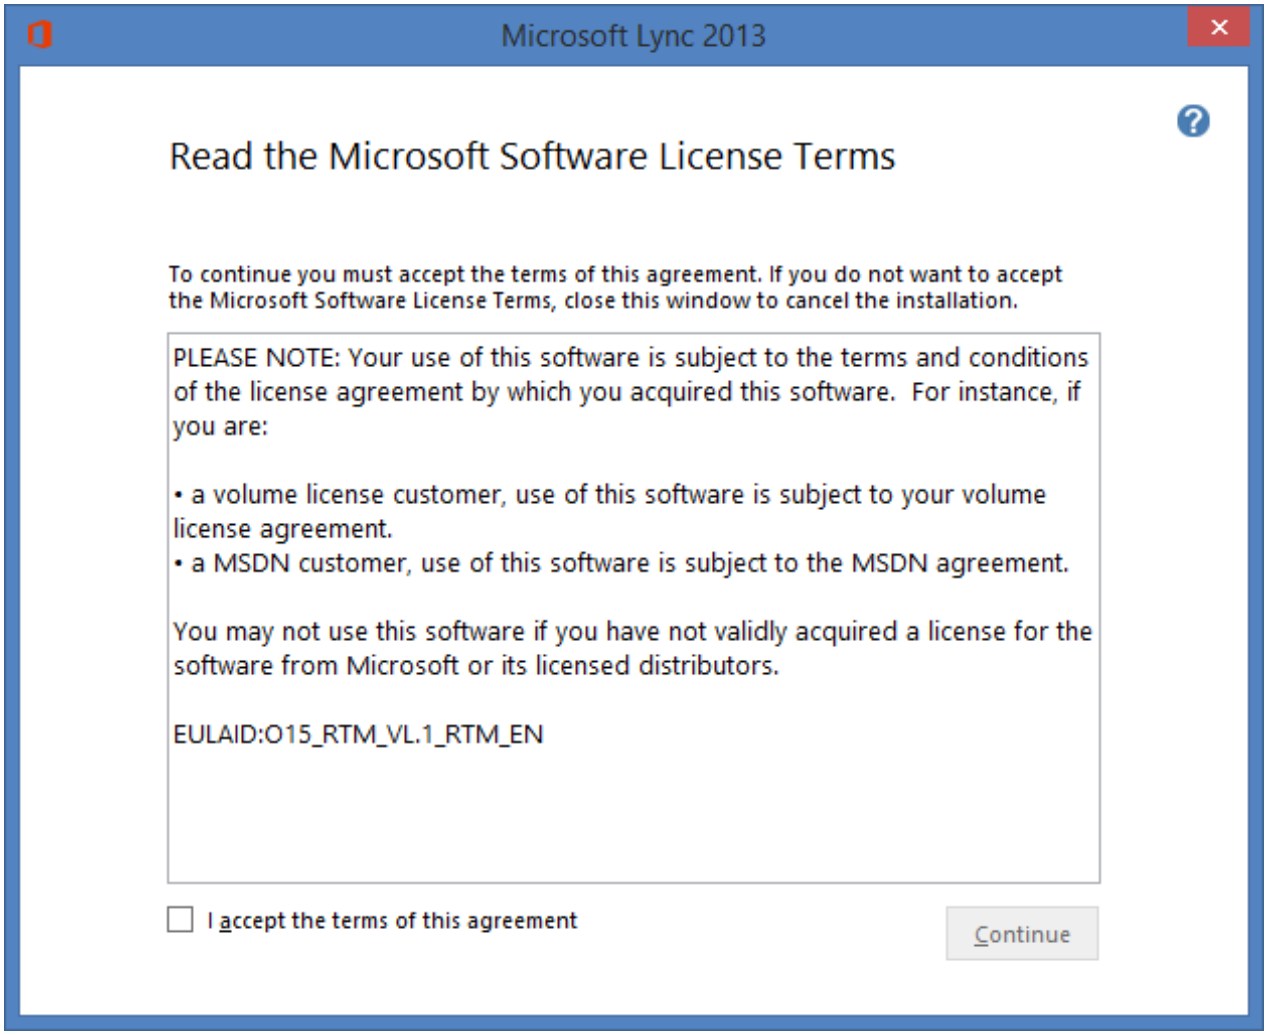

Installing Lync

1. The download will commence. The time it takes to complete will vary depending on the speed of your internet connection.
2. Once the download is complete, run the .exe file. If you are presented with a security warning (e.g. "This file may make changes to your computer") select **Run**.
   Â
3. Click **OK** toÂ extract the file. You can change the location of where you want the file extracted to by clicking the folder icon.

4. Once the file is extracted, you'll be presented with the Microsoft terms and conditions for installing the software. If you agree to the terms, tick the box and then click **Continue.**
