View Activity Task List Page

Country and State columns in the View Activity Task List Page

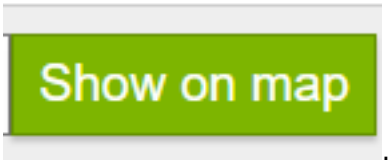

We have added two additional columns in the View Activity / Task List Page.

The two additional columns are **Country** and **State**.

The reason for this is because the company works 24 hours 7 days week across many different time zones and countries internationally. With the two extra columns you will now be able to quickly at a glance see the activities and what country and state they are based for. This will help you alot to work out your time zone schedule and who to call at the correct times. As a Guide here are the following time zone difference in each associated country based on where you are located, using the Time Zone Map.

Click on this link to use the **Time Zone Map.** http://www.timeanddate.com/time/map/

When using the map, enter the city you want in the 

Â and then click 

.

This will showÂ 

.Â You can add multiple pins to see their times.Â Just hover and/or click on the pin for the exact time of that city/ place.

Hover your mouse over any of the red dots to see the name of the city and country and current local time.
